

## G3 Playlist: Area of Rectilinear Figures

Aligns with *CCSS.MATH.CONTENT.3.MD.C.7.D*: Recognize area as additive. Find areas of rectilinear figures by decomposing them into non-overlapping rectangles and adding the areas of the non-overlapping parts, applying this technique to solve real world problems.

PREVIEW

## Objectives

In this module, you will learn and practice the following skills:

- Find area of rectilinear figures
- Solve word problems with area

Let's get started!

## Key Terms

- A **rectilinear figure** is a shape formed by straight lines.
- **Area** is the space within a closed shape.
- A **polygon** is a flat and closed shape that has many sides.
